

UNIVERSIDAD SAN FRANCISCO DE QUITO
SCHOOL: CIENCIAS SOCIALES Y HUMANIDAD.
COURSE: REL 3001E - International Organization

COURSE DETAILS:

Credits: 3

Prerequisites: Verify prerequisites in Banner academic system.

Co requirements: The course does not have Co requirements

COURSE DESCRIPTION:

This course covers the role of the organization and international organizations in the global arena. It begins with the conceptual analysis of the international organization through discussion of contemporary theoretical currents that analyze the phenomenon of creating international regimes and institutions. Afterward, concrete case studies such as the United Nations, the European Union, NATO and regional organizations such as MERCOSUR, the African Union, and ASEAN are examined. In analyzing these cases, special attention will be paid to their achievements and failures. Finally, this course discusses the impact of international organizations on domestic agendas, and the role of human factors, such as bureaucracy, for the development of international standards.

COURSE LEARNING OUTCOMES:

#	Learning Outcomes	Level
1	Understand and differentiate the concepts of international organization and international organizations individually.	Medio
2	Evaluate the efficiency of international organizations in the international sphere.	Medio
3	Analyze the role of international cooperation inside international organizations.	Medio
4	Understand the impact of international organizations on the national policies of states.	Medio
5	Analyze the human factor in international organizations and its impact on the generation of knowledge.	Medio

COURSE CONTENTS:

- Introduction to international organization
- Realism and the international organization
- Institutionalism and the domestic perspective
- Constructivism and the evolution of norms
- Supranational and regional organizations
- The role of bureaucracy and the human factor in international organizations

METHODOLOGY FOR THE INTEGRATION OF THEORETICAL AND PRACTICAL CONTENTS:

The teaching methodology used to teach all the course at USFQ follow the liberal arts philosophy: encourage dialogue and enable the learning construction through providing opportunities for ideas exchange among teachers and students. It is expected that all the theoretical content courses explore potential applications to the professional practice and work context where students are anticipated to perform through the integration of diverse activities and simulations that foster the contextualized understanding of concepts using reality and professional practice as frames of reference.

HOURS DESCRIPTION OF APPLIED PRACTICE

If this course has declared applied practice hours (laboratories, exercises, field trips, practicums, etc.); the instructor for the theoretical element is responsible for describing how the applied practices hours will be fulfilled and assessed during the semester.

Students must pass or fail both the theoretical and application practice components simultaneously.

All courses with declared applied practice hours must provide students with a written guide detailing the requirements for fulfilling the application practice component.

COURSE ASSESSMENT:

Each instructor is responsible for creating an evaluation scheme that corresponds to the learning outcomes declared for each course. The assessment scheme should be presented in a clear and direct manner, such as a chart that indicates the assessment categories and the elements included in each category; it must indicate the total weight that each category will have on the final grade. Category weights may vary, but under no circumstance can an individual element weigh more than 25% of the final grade. For example, it is acceptable for a "Homework" category to weigh 30% if it includes three tasks that weight 10% each. However, a "Final Exam" category that weighs 30% and only includes one element would be unacceptable.

Some academic areas or specific courses have pre-established assessment parameters. In these cases, all instructors assigned to these courses must follow the pre-determined scheme.

If this course has declared applied practice hours (laboratories, exercises, field trips, practicums, etc.) the assessment of these hours must be incorporated within the course's general assessment scheme.

#	Category	Description	Percentage of final grade
