Course Outcome

HIST 2220-Revolution and Modernization in Twentieth-Century China

Learning Outcome

After completing the undergraduate course, students should be able to:

1. Understand the major political, economic, social and cultural changes that China experienced during the establishment of a modern country, revolution and modernization from the 1920s to the end of the 1970s.
2. Grasp the development context of modern Chinese history and critically analyze important issues.
3. Understand various concepts, methods, historical materials, research status and important writings related to modern Chinese history.
4. Make research and judgments on issues of nationalism and revolution/modernization.
5. Express the above related historical knowledge through oral and written reports.
6. Demonstrate the ability to synthesize, explain and explain modern Chinese history and research potential in the homework.

Course Syllabus

The key undergraduate courses will focus on the theme of nationalist tone and the dual variation of revolution/modernization, and discuss the major changes that China has undergone in the process of modern state construction, revolution and modernization from the 1920s to the 1970s. It is divided into thirteen sections, involving the relationship between the state and society during the Republic of China, the transformation of ideology and culture, mass movements, imperialist aggression, civil war and power transfer, the establishment of the People's Republic of China, state control and social transformation, revolution and modernization. Contradictions and the transformation of Chinese society under the communist regime. In addition to the elaboration of the development context and the analysis of important issues, the undergraduate course also pays attention to various concepts, methods, historical data, research status, and the review of important works.

Lecture topics

1. Introduction: Nationalism, Revolution, Modernization
2. Transformation of Consciousness and Culture: China in the Twenties
3. Ten Years of the Founding of the People's Republic of China: Establishment of the Nanjing Government and Social Economy under the Kuomintang
4. Revolution from City to Country : The communist movement and the regimes of Jiangxi and Yan'an
5. The imperialist impact and China's war-time founding: Japan's invasion of China and China's war of resistance
6. Power struggles and calls for change: The Kuomintang and the Communist Party's civil war and society on the eve of "liberation"
7. With mid-term discussion)
8. State control and social transformation: the consolidation of the communist regime and the transition to socialism
9. Socialist modernization: the "Great Leap Forward" and the "People's Commune"
10. The emergence of crises and the transformation of contradictions: "In the early 1960s" Struggle between two lines"
11. The ideal of continuing the revolution and its setbacks: "The Cultural Revolution"
12. The summary of Mao Zedong's era: the development of the "Gang of Four" and the later period of the "Cultural Revolution"
13. Summary: the dual variation of the tone of nationalism and revolution/modernization

Assessment Type

	Assessment Type	Current Percent
1	Essay test or exam	40
2	Others	30
3	Presentation	30
