

Globalization and Health Inequalities (CULT 368/568)

Ayşecan Terzioğlu, Cultural Studies & Gender Studies
aysecan@sabanciuniv.edu (office hour appointment by e-mail)

On Tuesdays, the videos of the asynchronous 2 lectures will be uploaded by 15.00
On Thursdays 10.40-11.30, we will have our synchronous session, where attendance is a must! I expect you to finish watching the videos by Th

In the era of the COVID-19, the cultural conceptions of health and illness have changed drastically throughout the whole world, and a new awareness emerged on the global and local health inequalities. In this framework, this course introduces recent theoretical perspectives and ethnographic work which explore how the political and medical authorities, as well as the lay people, give meaning to and discuss the effects of globalization and global encounters on health inequalities, and how the global and local health policies address these inequalities. It covers such topics as the role of global health institutions in addressing the health inequalities, tensions between states' priorities and global impositions in defining and applying health policies, competition between biomedicine and alternative medical systems, local interpretations of global medical technologies and local conceptualizations of global epidemics. The course also includes nuanced approaches to the global and local ethical issues around the body, gender, life, illness, birth, death and pharmaceutical industry.

Grading:

For the undergraduate, except for the Cultural Studies BA students, who take this class as CULT 368:

Attendance and active participation on Thursdays: 10%

Midterm Exam: 30%

Quizzes: 20% (Quizzes' time will not be announced beforehand, and they will take place on two Thursdays)

Final Exam: 40% (The final will cover all the topics of the semester)

For the Ph.D., M.A and Cultural Studies students, who take this class as CULT 568:

Attendance and active participation: 20%

Leading one of the Thursday sessions: 30%

Final paper: 50 %

Codes of conduct in the class: Plagiarism in the sense that using other sources without proper referencing and copying from another friend, is strictly forbidden, and will be punished that the student will receive 0 from the plagiarized assignment. Turnitin and other relevant sources will be used for that purpose. During the discussions, the students who make generalized, stereotypical and discriminatory comments will be warned, as these comments will prevent the formation of a democratic discussion platform, which is a must for the classes and students' personal development.

Students who fail to show up for the exams indicated in the Syllabus without a valid excuse and not taking the make-up examinations for such exams will receive N/A as their final grade.

Your webcam must always be on during exams-if not, your exams will be void. You must connect to the Zoom link for the course with your official Sabancı University e-mail account, and not utilize other email accounts
