DSPO 25A37 - THE RISE OF CENTRAL BANKS : HISTORY AND POLITICS

COURSE DESCRIPTION

Why there is so much interest in central banks? Why have they become so important in contemporary capitalism? What are the origins of these peculiar institutions? Have their roles and functions always been the same? The answer to these questions is far from straightforward. The aim of the course is to provide students with a basic understanding of the historical trajectory of central banks and of their inherent 'political' nature. The lessons will explore the changing boundaries of their relationship with governments and financial systems across history, with a particular focus on the crisis of the 1970s, a moment in which they went through profound organizational, technical and cultural transformation. Since the 1970s, central banks have in fact increasingly drawn also the attention of political scientists and sociologists, which have attempt to demystify the dominant economic explanations for central bank independence and highlight the political, institutional and social factors behind it. The ultimate goal of the seminar is therefore to put this political and economic interaction in historical perspective and look at central banks as 'inevitably political' actors shaped also by ideas and power dynamics.

ENSEIGNANTS

Mattia LUPI

TYPE

Séminaire

LANGUAGE OF TUITION

English

PRE-REQUISITE

The course does not require prior knowledge of the subject. Topics will be covered from a multidisciplinary perspective, with an attempt to combine students' diverse backgrounds. An interest in history and political economy is expected.

SEMESTER

Autumn 2021-2022

COURSE VALIDATION

Class participation (10%) - The hybrid format will not prevent students attending remotely to actively participate and engage with the lecturer
Class discussion based on readings and student's notes/questions (20%) - Students are expected to prepare in advance before each session and hand-in their notes/questions on the topic/reading of the day. Oral presentation on the paper/book chapter of the day + QA (30%) - Each session, selected students will give a presentation to the class based on one of the readings, which will be followed by a Q/A session
Final essay (40%) - One week before the last session students will be assigned a topic for the final essay (2000-2500 words)
