General Information

Module Code

BIO-6012A

Academic Year

2021/2

Module Title

EMBRYO DEVELOPMENT AND STEM CELL BIOLOGY

Module type

WW

Semester / Term

SEM1

Level

6

Credit Value

20

Scheme

UG

Module Organiser

Professor Andrea Munsterberg

Module Description

What is this module about?

You will study the mechanisms that drive embryonic development, including the signals and signalling pathways that lead to the establishment of the body plan, pattern formation, differentiation and organogenesis. Your lectures will cover different model organisms used in the study of development with a focus on vertebrate systems. The relevance of embryonic development to our understanding of human development and disease is a recurring theme throughout the module, which also covers stem cells and organoids and their role in enhancing our understanding of development and disease and healthy tissue maintenance.

Learning objectives and Outcomes

What are the Learning objectives?

1. In depth understanding of the concepts underlying multicellular development
2. A firm grasp of different model organisms and their application in the study of development
3. An excellent comprehension of the cellular, molecular and genetic techniques used
4. Understanding of signalling pathways and molecular mechanisms involved in cell fate determination, tissue patterning and the development of various organ systems
5. Insight into the developmental origin of human disease
6. Appreciation of stem cells and their role in tissue maintenance and repair, their potential use in clinical applications and for drug discovery
7. Appreciation of organoids as a study system to model development & disease
8. A sound understanding of practical aspects of developmental biology

What are the Learning Outcomes?

	Name	Details
1		

Learning activities and Effort hours

Learning activity	Total effort hours	Indicative effort hours per week

Learning activity	Total effort hours	Indicative effort hours per week
1. Class sessions (Lectures, workshops, lab sessions, seminars etc.)	45	4
2. Pre-class preparation and follow up study	70	6
3. Work-based or Placement Hours		
4. Formative assessments/ activities	2	0.5
5. Feedback/ Feed forward sessions	1	0.5
6. Summative assessments (essays, dissertations, oral presentations, worksheets, lab reports etc.)	20	1.5
7. Background reading	20	1.5
8. Exams/ OSCEs	3	
9. Course Tests		
10. Tutorials (Individual or small groups)		
Total Hours =	161.00	14.00

Learning Support Materials

Should this module be exempt from requiring an online reading list?

N

Formative Assessments

Sequence	Assessment Type	Title	Deadline

Summative Assessments

Sequence	Assessment Type	Title	Deadline	Weighting	Method of submission	Method of return	Return date	Format and purpose of feedback
001	Written Assignment	News & Views on a Primary Research Paper (1200 words)		15 / 100	e:Vision (*NOT IN USE*)	VIA HUB		
Further Details								
002	Written Assignment	Practical Report (2000 words)		25 / 100		VIA HUB		
Further Details								
003	Exam Standard	Examination		60 / 100				
Further Details								

Attribute Development

On this module students will develop knowledge, insights and attributes that are readily transferable into future or current work settings. The attributes are articulated below to help understand how the module will help students to thrive on their course and prepare them for the world of work. These attributes are also articulated within the UEA Award.

Academic excellence

☑ In-depth and extensive knowledge, understanding and skills in chosen discipline(s)

☑ The ability to collect, collate, analyse and critically engage with a wide range of information sources, and evidence

☑ The ability to analyse and critically engage with a wide range of concepts and ideas

Critical thinking & problem solving

☑ A capacity for independent, conceptual and creative thinking

☑ A capacity for informed argument and logical reasoning

☑ A capacity for problem identification and problem-solving

Learning & personal development

☑ A commitment to developing professional values, self-insight and capabilities

☑ The ability to respond positively to constructive criticism and feedback from peers, tutors and colleagues

☑ Self-confidence and an ability to exercise own 'voice'

Digital literacy and IT

☑ Confidently employ a range of digital technologies for academic and professional/ career development purposes

☑ Use appropriate digital technologies and resources to locate diverse types of information for both academic and non-academic purposes

☑ The ability to critically evaluate and engage with the information obtained

Self-management & professionalism

☑ A capacity for taking responsibilities and ownership of actions

☑ An ability to manage time effectively, including setting priorities, juggling competing demands and meeting deadlines

☑ An understanding of work cultures and practices, including work place professionalism

Team working and leadership

☑ An ability to co-operate and collaborate with others, including working to shared aims

☑ An ability to take other viewpoints, have empathy for other people's position and give constructive feedback

☑ An ability to motivate and lead others, including taking the initiative and delegating when required

Communication

☑ An ability to communicate in written form for different purposes, audiences and contexts

☑ An ability to communicate in person for different purposes, audiences and contexts

☑ An ability to network effectively with others for specific purposes

Applied numeracy and Technical proficiency

☐ An ability to perform routine calculations in daily tasks and in applied contexts

☑ An ability to analyse and interpret data and evidence

☑ Proficiency in skilled techniques used for academic and professional purposes

Career management

☐ A capacity to reflect on and articulate qualities, strengths and attributes

☑ The ability to research specific job and career areas

☐ An ability to present your experience and attributes positively to graduate employers

Commercial awareness

☑ A knowledge of the link between academic subjects and their commercial applications

☐ An understanding of business priorities and the needs of graduate employers

☐ The ability to understand and prioritise customer needs

Innovation and enterprise

☐ The confidence to introduce and establish something new

☐ The potential to take an idea through to its practical application

☐ The potential to apply an enterprising mind-set to situations

Citizenship and stewardship

☐ An understanding of your place within local and global communities

☑ An awareness of the need to manage shared and finite resources, including an appreciation of moral and ethical dimensions

☐ An ability to improve the lives of others and lobby for positive change through community and/or political engagement
